

- The pendant system „Performance“ enables a functional and cost-effective possibility to supply the operating room via the ceiling.
- The „Performance“ series offers an extended basic equipment for the operating room at an excellent price-performance ratio.
- The pendant system is not adjustable, has 2 swivel arms with 800 mm each and a swivel range of 320° each. The installed components are available in DIN and British standard (further country-specific equipment on request).
